Lancaster Farming

Vol. III. No. 11. Quarryville (Lancaster County) Pa., Friday, Jan. 24, 1958 $2 Per Year

Club Steers Average 33.57 At Harrisburg

Prime beef sold high at Harrisburg Friday as 122 head of 4-H steers averaged 33.57 cents a pound. The Chicago high Friday was 31 cents.

This average was 3½ cents greater than the 1957 average

A new record was established by the price paid for the Grand Champion steer when Howard Johnson Restaurants paid $2.02½ cents a pound for the Dauphin County Steer.

Auctioneer Abram W Diffenbach, R4 Lancaster, started the Polled Hereford for a bid of a dollar a pound. The bidding coasted along until it stuck at $1 15 cents. He then used every trick of the auctioneers trade, including reciting a poem, to get the bidding going again

But when it did start, it was the tick of a clock, regularly, a cent at a time, until El Centro Restaurant, Harrisburg, gave way to Johnson's bid. Diffenback, by his work and good humor, had the crowd cheering and clapping with almost each bid from the $1.55 mark on.

Drawing the most applause was a remark that he was "ready to go on to $30," in reference to the record paid Mrs. Sue Secondino at the International last month

The reserve champion steer sold to Medford's Inc, Chester, for a price of $1 01 ¼ a pound

Penn Harris Hotel, Harrisburg, went to 50 cents a pound to get the champion Shorthorn

Marian Hackman's reserve champion Shorthorn came back to Lancaster County when William Serbast, Reamstown, paid 36 cents a pound for him.

Three steers brought higher prices to county showmen An Angus shown by Marlin Cassel, R1 Manheim, got the best price paid to a county exhibitor when C W. Hefner, Schuylkill Haven, paid 37 cents a pound

Two other Angus steers moved at 36½ cents a pound They were

(Continued on page ten)

THESE THREE LAMBS netted David Lapp, left, the price of $1.25 a pound from Economy Meat Market, York, at the 4-H Baby Beef and Lamb Sale at Harrisburg Friday. At the right is Harry Samuelsohn who bought the lambs Helping hold the trio is Miss Leona Augsburger, Reinholds. (LF Photo)

Ike's Angus Make First Appearance At Farm Show

Two summer yearling heifers in the Angus show at Harrisburg last week, entered by George E. Allen and B G Byars, attracted little attention placing only third and fifth.

But they represented the debut in the showning of one of the most prominent Pennsylvanians who is in the Angus business

You see, George E. Allen is the farm manager for Pres Dwight D. Eisenhower and Byars is in partnership with the President in the beef cattle business.

Eisenhower declined to show in the Pennsylvania Livestock Exposition last fall saying that his herd was not ready Although his two heifers did not place highly, it must be remembered that the two farms he was showing against Millarden and Old Home Manor, are two of the best Angus farms in the business

Millarden, it might be recalled, had the Grand Champion female at the International in December.

Although no comment was forthcoming from Gettysburg, it can be safely assumed that the Eisenhower entries were kept quite to keep down curiosity seekers and souvenier hunters who might, in their misguided zeal, seriously harm the expensive cattle

At any rate, Pennsylvania Angus breeders now can expect to meet a new competitor in the show ring It is gratifying to see that the competition has started strictly on the merits of the cattale rather than on the merits of the breeders name.

Grand Champion Pen of Lambs Bring David Lapp Price of $1.25 a Pound

The Grand Champion pen of 4-H lambs, three Southdowns shown by J David Lapp, R1 Bareville, sold for $1 25 a pound Friday at farm Show

The lambs, weighing a total of 24 pounds, were bought by Economy Meat Market, York Last year's 4-H grand champion pen sold for a dollar a pound

The reserve pen, also South downs, were shown by Miss Mary K. Keene, R Christiana, and also weighed 294 pounds They were sold to Medford, Inc, Chester for 40 cents a pound This price compares to the 65 cents a pound paid for the reserve pen last year

Other top pens sold as follows

First prize Hampshires, 363 pounds, shown by Miss Mary Ann Hess, R1 Bareville, to S Bonacurso, New Holland, for 25 cents a pound

Shropshires, 336 pounds, shown by Harold Harpster, Boalburg, to Swift & Co, for 30 cents a pound

Cheviots, 285 pounds, shown by William Gates, hestnut Hill, to Clemens Super Market, Landsdale for 40 cents a pound

Dorsets, 325 pounds, shown by Miss Pauline L. Glosser, R2 Bernville, to Leesport Livestock Auction, for 2 cents a pound

The average for the 34 pens sold was $34 4 cents a pound Without the champion and reserve champion pens, the average was 31 62 cents a pound.

Fifteen open class fat lambs, weight 1,450 pounds, sold for a total of $473 39. This brought the sale total for all lambs $4,113 79. Open class lambs averaged 32 65 cents a pound as compared to 23 05 cents a pound at the 1957 Farm Show.

The principal lamb buyers were Swift & Co, eight, A&B, Allentown, six, S Bonacurso, New Holland, five; Medford's Inc, and Seachrist Bros, York, four each; Leesport Livestock Auction, Arthur C Kling, Landisburg, and J. F. Fisher Son, York, three each, Morrison Cove Livestock Market, Samuel Kalb, Spring city, Samuel Hoppy, Lancaster and Saulsburg Abbattoir, Shillington, two each, and Economy Meat Market, York, one.

Here are the sales of the Lancaster County entries

David Lapp, Southdowns, 294,

Sam Long Wins Showmanship G. C. Award

Samuel H Long Jr, 18, R3 Manheim won the grand championship in 4-H Baby Beef showmanship at the Farm Show

He finished first also in the Angus class showmanship and won a showbox from the Pennsylvania Angus Breeders' Asso.

Top Shorthorn showman, Terry Shaffner, 16, Oak Hall Station, Centre county, won a showbox given by Pennsylvania Shorthorn Breeders' Asso

First place as Hereford showman was won by Dale Werner, 18 R2, Hanover York county. He was awarded a showbox by the Pennsylvania Hereford Breeders' Association

Werner and Shaffner were second and third, respectively, in the showmanship class for all breeds.

In the breed showmanship classes the winners were Angus,1. Long, 2 Carol Ann Reichard, R1 Nazareth, Northampton county; 3. Jay Fought, R2 Mechanicsburg, Cumberland County, Hereford, 1. Werner, 2 Lee Sweigard, R2, Halifax, Dauphin county, 3. Merrill Dominick, R1 Greensburg Westmoreland county; Shorthorn, 1. Shaffner, 2. Mary L Miller. R2 Manheim. 3 James Crawford, Jr., Tyrone, RD1, Blair County.

Now Is The Time . . .

By MAX SMITH

County Agricultural Agent

Max Smith

TO USE CARE IN STORING CHEMICALS — One pound of 2,4-D can kill the germination on several thousand bushels of grain, spray materials are dangerous in the feed rooms or in the grainery The milk house is also a poor place for chemicals because milk will pick up odors from the chemicals. A dry machine shop or shed safely away from all feeds and grains and out of reach of children and animls is the best place to store chemicals

TO PREPARE CATTLE GRUB TREATMENT — Many local and imported cattle, both dairy and beef, will soon be developing small bumps over the backs which are signs of the presence of cattle grubs This parasite develops under the skin and reduces both milk and beef production. Treatment in this area should be administered during the month of February and a 4 per cent Rotenone dust or paste should be rubbed into the back of the animal. A thorough brushing or combing prior to the treatment is needed in order to remove the "seal" protecting the grub under the skin This treatment is especially recommended for top production and for show animals

TO FARM BY TEST — NOT GUESS — A complete test on a number of fields or strips on each farm year is strongely recommended, this method of determining crop needs should save money by making better use of lime and fertilizer. We suggest that samples be taken early in order to avoid the spring rush Soil test envelopes are available at any County Extension Office.

TO SECURE YOUR "AGRONOMY GUIDE" — This is one of the most valuable publications of the year furnished by our Extension Service; every Lancaster County farmer should have one and be guided by the recommendations. All phases of crop production are covered.

COT Entries Slow This Year, Moore Reports

Entries in the annual Junior Chicken of Tomorrow contest are coming in more slowly this year than normally, reports Floyd Moore Lancaster, chairman of the Coatesville Regional committee

Reporting at the Poultry Federation meeting held last week in Harrisburg, Moore said only 18 entries had been received.

The Federation relaxed one of the requirements for participation in the contest. Instead of requiring the entry to be sponsored by a member of the Federation, county agent, vocational agriculture instructors or any member of the regional committee may sponsor entries.

Entries blanks for the contest may be secured from Moore. at the Lancaster Farming Quarryville office or from any member of the regional committee.

Deadline for entries is Feb 1 The contest is open to any boy or girl from 10 to 20 years of age.

Birds entered in the contest will be judged the first week of May.

Broilers Continue Price Climb As Average Hits 23.75 at Exchange

LANCASTER Jan 16 — Broilers continued their price climb with most of 211,800 birds being sold at 23¾ cents at the Lancaster Poultry Exchange today

The range was from 22¾ cents to 24¼ cents

A lot of Leghorn fowl sold for 15 cents and a lot of sex link fowl moved at 21¼ cents Three lots of capettes sold at prices ranging from 24¼ cents to 25¼ cents

A year ago the broiler average was 19 15 cents with 212,150 broilers being sold The price for capettes was 25¼ cents

Here is the Jan. 16 sale by lot number, seller with grower in parenthesis, number and breed, age in weeks and days, buyer and price per pound

Fed Steers Gain 50 Cents At Baltimore

BALTIMORE, Jan 20 — Today's receipts were about the same as last week's in all classes of livestock Fed steers made up approximately 65 per cent of the supply, fed heifers 10 per cent, cows 15 per cent and the balance mostly vealers with a few bulls, slaughter calves and stockers and feeders Fed steers and heifers were active, largely 50 cents higher Cows were active and 25 50 cents higher Bulls were slow, steady to 50 cents up Vealers and calves were moderately active, fully steady to 50 cents higher, stockers and feeder steers were scarce and sold fully steady

STEERS AND HEIFERS Good and choice 950-1250, mostly 1000 1100 lb fed steers $25 00-26 50, several lots of choice $27 00 with short two loads 1043-1060 lb mostly average choice $27 15-27 35 and a package of 993 lb high choice at $28 50 Standard and good steers sold at $22 00-25 00, standard to mostly good 700-800 lb heifers brought $23 00 24 50 and one package reached $25 00

COWS AND BULLS Cutter to commercial cows ranged from $15 50-19 00 with a few high commercial and standard at $19 00 20 00 Canners and cutter sold from $13 00 16 00, but largely $14 00 and up The bulk of utility and commercial bulls brought $17 50-21 00 with a few head at $21 50 22 00

VEALERS AND CALVES Good and choice 160 230 lb vealers sold at $32 00-36 00 with a few head of choice 160 200 lb including an individual prime $36 50-37 00 Standard and good sold from $25 00 32 00 A few standard and good slaughter calves brought $19 00-23 00

STOCKERS AND FEEDERS A few small lots of mostly good 600 800 lb stocker and feeder steers sold at $23 25-24 25

HOGS Barrows and gilts were active and fully steady compared to last Thursday's close, sows were fully steady to 25 cents higher The supply was composed mostly of mixedU U S No 1, 2, and 3, 180 230 lb butchers Mixed No 1, 2, and 3, 180 230 lb butchers brought $21 00 21 25, mostly under 200 lb at the latter price Several lots mostly No 2 and 3 grades 230-250 lbs ranged from a wide spread of $20 00-21 00 and a few lots over 250 lbs sold down to $19 50

Mixed No 1-3, 300 400 lb sows $16 00-16 75 and a few small lots No 1-2 under 300 lbs $17 25-17 50. Small lot near 500 lb $15 25.

SHEEP AND LAMBS Receipts were too light to adequately test price

Gilts Average $116.91 During Farm Show Sales

Two hundred thirty-five head of bred gilts averaged $116 91 at the series of bred gilt sales held during Farm Show week This was the highest average since 1954

The highest price paid was $525 for a Berkshire gilt consigned by George Bolinger, New Castle, Lawrence County Purchaser was Forrest E. Ferguson, owner of Shendoah Farms, Middleberg, Va.

The senior spring gilt was grand champion of the Berkshire class and was a full sister to last year's champion.

Yorkshires commanded the best prices with an average of $163.59. Next were Durocs with an average of $117 70 followed closely by the Hampshires at $117 00

Here are the top prices and average for each of the breed sales.

(Continued on Page Three)

Fed Steers Dollar Higher, Active; Hogs Gain at Lancaster Yards

LANCASTER, Jan 22 — CATTLE; three days, 3,502, week ago 3,685 Slaughter steer supplies slightly larger than a week ago Fed steers active $ 50 1 00 higher than last Wednesday, heifers in small supply strong to 50 cents higher. Cows 25-50 cents higher than last Wednesday and bulls fully steady to strong. Stockers and feeders moderately active steady to strong.

The three-day offering comprised around 40 per cent stockers and feeders, 15 per cent cows and bulls and balance mainly good to low prime slaughter steers except for the equivalent of about four loads of heifers

Bulk choice fed steers 1,000-1,300 lbs $26-27 75, high choice and mixed choice and prime $28-28 75, load mostly prime $29, load prime 1,010 lb steers $30 and part load average to high prime 1,235 lb steers $31.75 Good and low choice steers $23.75-26, some mixed standard and low good $22 50-$23 50 Small lots good and low choice heifers $21 50-24 50 Lates sales cutter and utility cows $14 25-17 25, commercial scarce, Canners and low cutters 12-14. Utility and commercial bulls $20-22 50. Good fed yearling bulls to $24

Bulk medium and good stocker and feeder steers and light yearlings 590-1,035 lbs. $22-25, a few lots choice 750 940 lb. feeding steers $25 50 Good and choice stock steer calves $25-28

CALVES: 632, week ago 667. Vealers $1-2 higher than last Wednesday Bulk good and choice 140-210 lb vealers $28-33, high choice and prime $33 50-37 few to $38 and 39, on Monday Standard grades $22-27 50 some utility down to $17

HOGS: 1,434, week ago 1,781. Barrows and gilts 50-75 cents higher than last Wednesday, sows in small supply, fully steady Bulk barrows and gilts mixed US 1-3, 190 230 lbs in Wednesday's trade $21 50-22 00, small lots No.1 22 50 Sows on Monday mixed grade 300-550 lbs 14 50-17, a few under 300 lbs to $18

SHEEP: 187, week ago 228 Supply mainly native wooled lambs. Slaughter lambs fuly steady to 50 cents higher than last Wednesday. Bulk good and choice wooled lambs $22.50 26, a few head to $26 50, utility and low good $19-22 50

Active Market Ups Hog Price At Chicago

CHICAGO, Jan 20 — CATTLE receipts around 70 per cent slaughter steers, 15 per cent heifers and about 7 per cent cows Arrivals include only 30 loads western cattle, principally fed steers Average choice steers again comparatively scarce, numerous loads high choice and prime grades here although the percentage of such cattle in receipts not quite as large as last Monday Liberal showing good and low choice steers Slaughter steers steady to 50 cents higher choice and prime grades active, steers grading low choice and below weighing over 1250 lbs slow Heifers moderately active, steady to 25 cents higher Early trade on cows rather slow but about steady Bulls and vealers steady Stockers and feeders scarce, few sales fully steady Bulk choice and prime slaughter steers $26 25 30 00, few loads $30 25-31 00 Load lots high choice steers sold as high as $29 00 Most good grade $23 50-25 50 although few loads good 1000-1050 lb weights up to $26 00

HOGS Fairly active, steady to 25 cents higher on barrows and gilts, most advance weight over 230 lbs Sows scarce, opening steady to 25 cents higher Early advance on receipts scaling over 260 lbs U S No 2 and 3, 190-240 lb barrows and gilts $19 50-19 85 Several 100 mostly No 1 and 2, 190-2250 lbs $19 85-20 10 Deck No 1, 230 lbs $20 00, 200 head No 1 190 215 lbs uniform in grade $20 25 No 2 and 3, 240 260 lbs $19 00 19 50 No 2 and 3, 270-290 lbs $18 25-19 00.

Get Ready for 1959 Farm Show

FARM SHOW 1958, faded into the past Friday as Auctioneer Abe Diffenback sold the last buddy steer in the big arena

Lancaster County entries, especially in the 4-H baby beef classes were not generally so successful this year as they have been in the past

But there is no real need to cry For Lancaster Countians brought home a real lion's share of the prizes and awards, even though there were more red and white ribbons rather than the usual blue and purple varieties

The young man from Dauphin County is to be congratulated on his victory in the 4-H competition His Polled Hereford steer was beautifully fitted and fed He had it very well trained

But more important, his victory gives Dauphin and other counties in the state more incentive to bring their baby beef animals to the Farm Show The competition will stiffen even more

And after all, the competition is the reason we have a Farm Show There is nothing duller for exhibitor or observer than to have a class completely dominated by one breeders

To our way of thinking the best possible show is when the judge has three or four animals from different farms in different parts of the state before him when choosing a grand champion The air, at a time like that, tends to become electric with excitement, and the hush that can come over a crowd of five or six thousand is just as overwhelming as the cheer that follows when he gives the winner the swat with his hand that means he is the best in the show

How Not-to-Raise Hogs?

HERE IS A story that has been making the rounds that we thought you might enjoy We got it from the Hereford Quarterly who in turn credit the Salmon, Idaho, Recorder-Herald who in turn credited the Atchison, Kan., Daily Globe

It's all based on a letter supposed to have been written by a Louisiana farmer to the Secretary of Agriculture The letter follows

"Dear Mr Secretary

"My friend Bordeaux over in Terrebonne Parish received a $1 000 check from the government this year for not raising hogs So I am going into the not-raising-hog-business this year

"What I want to know is in your opinion, what is the best kind of hogs not to raise? I would prefer not to raise razorbacks but if that is not a good breed not to raise I will just as gladly not raise any Berkshires or Durocs

'The hardest work in the business is going to be keeping an inventory of how many hogs I havn't raised

'My friend Bordeaux is very joyful about the future of this business He has been raising hogs for 20 years and the best he ever made was $400 until this year when he got $1 000 for not raising hogs

'If I can get $1 000 for not raising 50 hogs then I will get $2 000 for not raising 100 hogs I plan to operate on a small scale at first holding down to about 4 000 hogs which means I will have $80 000

Now another thing These hogs I will not raise will not eat 100 000 bushels of corn I understand that you also pay farmers for not raising corn So will you pay me anything for not raising 100 000 bushels of corn not to feed the hogs I am not raising?'

I want to get started as soon as possible as this seems to be a good time of year for not raising hogs

Your very truly
Octave Broussard

KNOWS HIS TOMATOES

We teasingly asked our 90 year old grandpa why he didn't get married again His reply was prompt and philosophical "Well I'll tell you he said there ain't but one kind of a woman who'd have an old codger like me and I'll be darned if I'm going to settle down and live with a fool —Dave Anderson

BY JACK REICHARD

75 Years Ago

A writer on the subject of Natural Dislikes declared that most of the strong likes and dislikes which are displayed by men and women are the result of habit and association, but thought that some were natural, being appartnetly born with them

It was pointed out that children have been known to manifest an antipathy towards their father, even when babies In some cases, the writer said, this may be only a part of the natural dislike which some infants have for persons in black clothing

The writer told of cases where he found men possessed by an uncontrolled aversion for the opposite sex A certain Duke of Muscovy fell ill immediately every time he came in sight of a woman Another case involved a hermit who was seized with a cold perspiration if one of the fair sex met his gaze

A case on record was a young lady to whom all the colors were sources of distress except green, yellow and white A passing funeral threw her into a prespiration and a "soldier in scarlet uniform deprived her of consciousness"

WEATHER PREDICTIONS IN THE YEAR OF 1883

Seventy-five years ago a writer on the subject of predicting the weather had this to say

There is no better illustration of the superiority of our knowledge to that of former times than the introduction of a measure of certainty and of science into our predictions of the weather There have always been 'weather-wise' people The wizards and witches of ancient times, who used to sell gales and breezes to superstitious sailors, often showed the marvelous skill in fortelling the weather, and sometimes their skill procured for them the honor of being burned at the stake, or of being hanged on an inconveniently high gallows Yet the poor creatures had done no more than turn their knowledge to account which was acquired by long observation and study of the signs of the sky

"The weather-wisdom of today (1883) is purely the result of science Certain information obtained from many stations, and conveyed to one central station by telegraph, enabling the receiver not only to know what is the weather all over the country, but what the weather is to be

We cannot make the weather or control it, but we can arrange our business so as to suffer the least inconvenience or loss if we only know what the weather is to be'.

50 Years Ago

The following incident was told by a Pennsylvania teacher of a oneroom school

In my school there is a boy about six years old to whom water apparently had not been applied for days His hands and face were begrimed and his clothing had evidently not been changed for some weeks

One afternoon after dismissing the classes I kept the child after school and asked him to please tell his mother to give him a thorough bath and put some clean clothes on him I told him to tell his mother that he smells too bad to attend school'

The following morning the boy came to school and his condition had not been changed Going up to the teacher he handed her a note written by the mother which stated

To the Teacher Willie ain't he rose We didn't send him to school to be smelt we sent him to be learned

SPORTSMEN PROTEST P. G. C. MOVE

Back in 1908 the wrath of sportsmen in general was brought to a boiling point when the Board of Game Commissioners recommended to the Pennsylvania legislature that a law be passed making it illegal to hunt small game with dogs A spokesman for the commissioners said the chief object of the proposal was to protect game, which provided that any dogs found in the woods in any month of the year would be shot by game wardens Sportsmen declared they would organize and resist vigorously the efforts of the commissioners

Fifty years ago a carping Briton by the name of Whibley made quite a fuss over the quality of the American brand of liberty and patriotism

"Liberty", said he, "is a thing which no one in America can escape The old inhabitant smiles with satisfaction as he murmurs the familiar word At every turn it is clubbed into the unsuspecting visitor

"If an aspirant to the citizenship of the republic declined to be free he would doubtless be thrown into a dungeon, fetter and manacled, until he consented to accept the precious boon

"America's view of patriotism is distinguished by the same ingenious exaggeration as her view of liberty She has as little doubt of her grandeur as of her freedom She is, in brief, God's own country and in her esteem Columbus was no mere earthly explorer he was the authentic discoverer of the promised land"

Elsewhere across the sea, a half century ago, men and women could sit in a restaurant overlooking the Thames embankment and dine on fresh salmon brought from the waters of California and Oregon, indicating the efficiency of American liberty loving businessmen

25 Years Ago

An Alabama public utility paid its taxes several weeks before they were due, in order to aid the schools of the state which were in desperate need of funds Commenting on the action, the Selma Times Journal said

'We want to pay tribute to the generosity and public spirit of the Albama Power Co in paying its taxes two and three months before they are due, to relieve the pressure on the state and the schools in their present financial plight The power company has previously advanced $700,000 and is now paying $950,000 constituting payment in full"

The payment of $1,650,000 several months ahead of time involved a considerable loss in interest on the part of the company, but its officials had an interest in the welfare of the state and its schools, a fine example of good citizenship on the part of Americas business managed electric industry

In Buhnham, Ill., that week, James Carter was arrested for selling a woman who could not read English a pair of spectacles which he claimed would enable her to do

Organized Church

Lesson for January 26, 1958

DOESN'T it kill religion to organize it? Not at all It doesn't "kill" water to construct a city water system All the pipes do is simply to make water available where it will do the most good If it were not for the pipes and pumps and all that the city would die of thirst Does marriage kill love? Do schools kill education? They can, of course, but good schools help education good marriages are a blessing to love And a well organized church is a help to faith, not a hindrance

Dr. Foreman

The eighty-odd church communions uniting in the study of these "international lessons" are not organized in the same way But the fact that our organizations differ does not keep us from uniting in the study of the same Word of God It would be interesting to study the many ways in which churches are organized but right here we are sticking to one thing, the organization of the Christian church in its earliest days

Needs Come First

Three things can be said of organization in the early church First is that it grew out of needs and not the other way around In America we are so used to everything being organized down to the last sub-section that we are inclined to think a church isn't a church unless it has some definite organization But in the book of Acts we hear about the church some time before we hear of the officers The first deacons that committee of seven men who were elected by the people and appointed by the apostles to deal with the tricky problem of caring for the needy in the church,—those deacons were elected because they were **needed.** The church did not elect them because some organization-chart called for such officers The church elected them for a particular job: it did not elect them first and then hunt for something for them to do

Character Came First

The word "deacon" means "one who serves," a serviceable man. The elders and the bishops or overseers, of whom we read later, were also serviceable men Paul never left a church without officers He was a practical saint

But Paul, when writing about church officers, as he did to Timothy and Titus, lays down some remarkable provisions In describing various officers, Paul oddly enough (we might think) says not a word about what these officers were to do It's all about what they were to **be,** as men, as Christians. Paul knew that no organization is better than the people who operate it Getting the right people is the important matter Personal qualifications come ahead of technical qualifications This does not mean that the framework of organization is of no importance Other things being equal it is better to have some framework or system which discourages one-man rule, or the development of cliques But the officers' character is the central matter Paul did not want Timothy to ask, about a prospective officer, what kind of executive did he make? but rather How well has he managed his marriage, his home? It is a more vital question.

The Church Came First

No apostle known to us ever set up a skeleton organization, a cadre as they say in the army, and left it to collect a church around it. Paul's great figure of speech is the body and the members A body does not come into existence by agreement of some loose arms, legs and insides to get together. The body develops these various parts as it grows The body is more important than any of its members So with the church, as it was going in the New Testament era The church produced the officers, not the officers the church The church does not exist, for example to give preachers jobs Preachers exist to serve and build the church Further, if the church is always first and every one realizes this then no man or woman can think 'I am indispensable If I die or move away I cannot be replaced" Every one in the church has something to do, something he or she can do perhaps better than any one else, whether an officer or not Everyone should try to make himself indispensable, yes, but he must remember that the one and only indispensable person in any church is—Christ

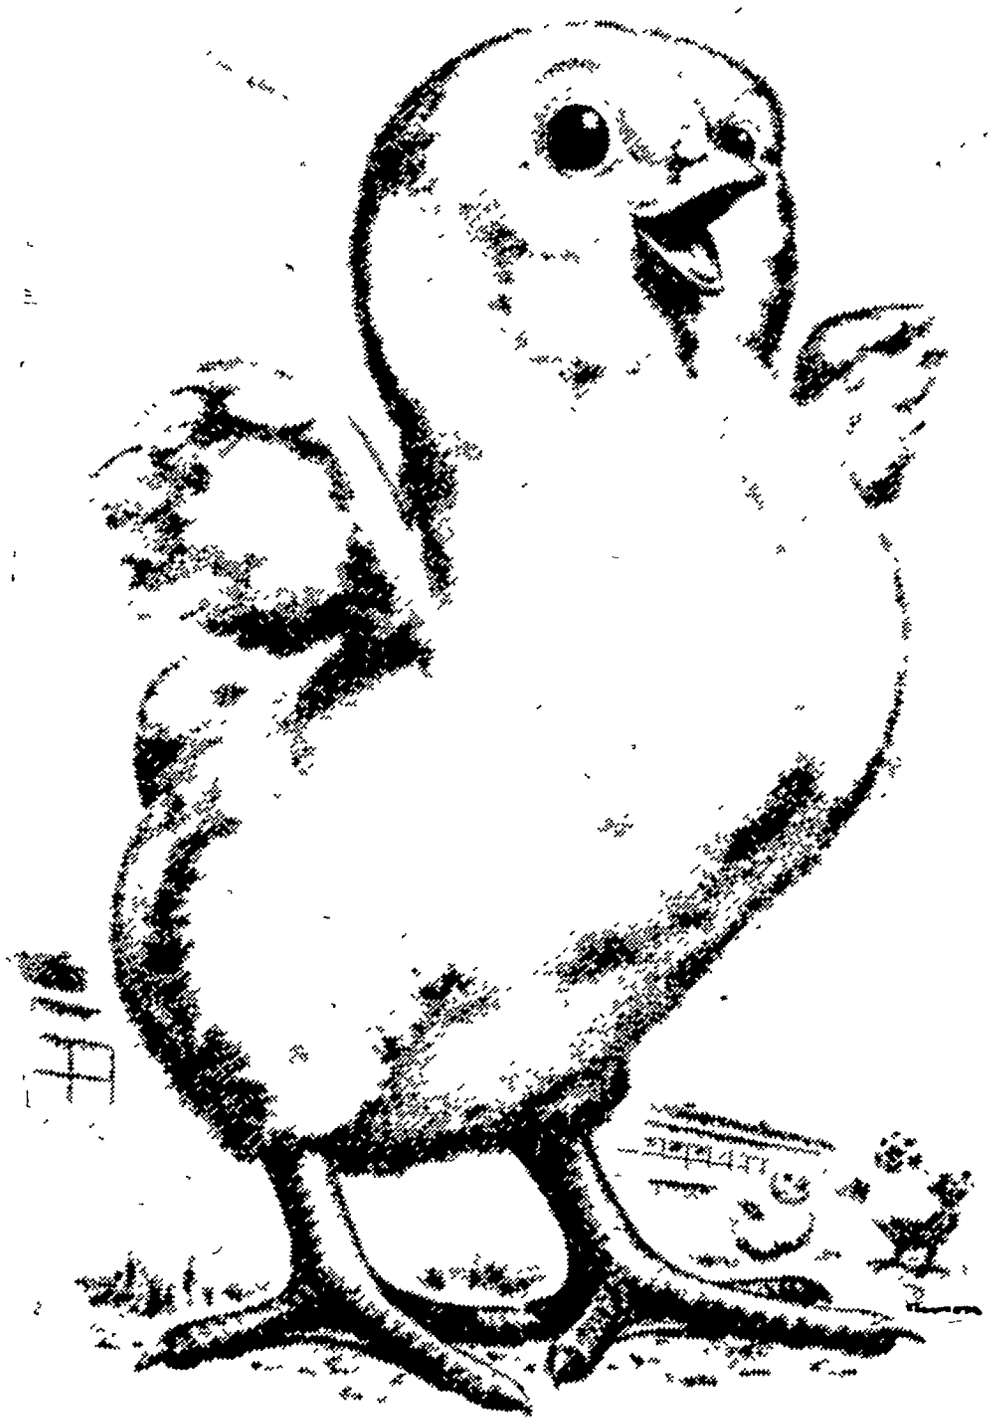
1958 FUL-O-PEP CHICK STARTER
grows sound-bodied, sturdy
CHICKS WITH A FUTURE!



GROWS BIRDS FIT . . . NOT FAT

Give your baby chicks the *extra growth power* they need to *grow sound, sturdy* bodies and strong rugged bones. Start 'em on new, nutritious Ful-O-Pep Chick Starter. It grows chicks fit . . . not fat!

98% OR MORE CHICKS LIVE

New vitamin-rich Ful-O-Pep is highly fortified with vital health ingredients to give your chicks more vim and vigor . . . *added life protection,* too. Many poultrymen report over 98% livability, some 100%. What better insurance can you provide for your future layers?

BUILDS AMERICA'S BEST PULLETS

For 15 years in the National Egg Laying Tests—birds grown on Ful-O-Pep Feeds averaged laying *more eggs,* and *bigger eggs,* than birds grown on other feeds . . . official proof that Ful-O-Pep grows America's best laying pullets.

BIRDS LAY FEWER PEEWEES

On the famous Ful-O-Pep Plan, pullets are not forced to lay prematurely . . . are allowed to *develop normally and fully* before they are brought into egg production. As a result, they *lay big, full-sized eggs*—very few, if any peewees.

PRODUCE 18 MORE TOTAL EGGS

Research shows that pullets grown on the famous Ful-O-Pep Restricted Feeding Plan *laid 18 more eggs* than full-sisters grown on forced-feeding plans. Their eggs were bigger, too—averaging almost 1½ ounces more, per dozen!

Ful-O-Pep's Restricted Feeding Plan

SAVES $4.00 PER 1000 BIRDS

You buy only 2 lbs. Chick Starter—5 lbs. Ful-O-Pep Growing Mash per bird on range on the Ful-O-Pep Restricted Feeding Plan. This famous plan has been used by leading poultrymen for 20 years. You save up to 8 lbs. total feed per bird, over forced-feeding plans, or about *40¢ per bird!*

Simplified plan makes feeding easy

You feed only 5 lbs. of Ful-O-Pep Growing Mash per 100 birds—5 days a week. Feed oats every day. It's that simple! Ask your Ful-O-Pep Dealer about this *easy-to-follow plan*—so you, too, can grow big, profitable pullets . . . and *save about 40¢ per bird!*

THE QUAKER OATS COMPANY
. . . makers of dependable feeds for over 75 years

PFA Backing Benson's Drop Of Milk Parity

The board of directors of the Pennsylvania Farmers' Asso said Friday, that lower government price supports for manufactured dairy products, as announced by Secretary of Agriculture Benson, are preferable to "cow quotas", which are being advocated by some proponents of continued high price supports

In an interpretation of the policies of the state wide organization the PFA board of directors sent a telegram to Secretary of Agriculture Ezra Benson, complimenting him on his recent announcement that dairy support priceet levels will be rolled back to 75 per cent of parity on April 1

In a telegram to the Secretary, the Pennsylvania Farmers' Association board of directors said

'We strongly commend you for your announced intention of lowering the price support level on dairy manufactured products to 75 per cent of parity We believe your action to be completaely in line with the intent of the law as passed by Congress, and we most certainly find it in line with the policies adopted by our voting delegates in annual session last November

"Our policy resolutions read. Price support programs should contain just enough protection to avoid a complete collapse of agricultural prices They should tend to encourage the use of supply and demand as the major factor in setting prices We recommend that the Federal Goverment get out of the price support, subsidization and marketing business as soon as feasible."

'We encourage you to carry out your announced intentions and pledge ourselves to support your action in every way possible We believe the final result of continued high Government price supports on dairy manufactured products will lead to "cow quotas" which would place Pennsylvania dairymen in a straight jacket from which they could not escape.

In explaining what is meant by 'cow quotas," Farmers' Association President, G A Biggs of McConnellburg said that quotas have been applied to acreage of crops that are supported by government subsidies, which through the year have virtually ruined the business of producing crops by efficient producers

"The same thing can, and probably will, happen to the dairy business if we continue to permit our government to interfere with the normal supply and demand on the dairy markets,' said Biggs

"Farmers everywhere", said Biggs, "are completely disgusted sick and tired of GGovernment interference in the operation of their farms" We must recognize that as long as we rely on government to provide us with any portion of our income we must accept regimentation, controls, quotas and other devices of government

Any goverment," said Biggs, "That is big enough to give us all we want is big enough to take all we've got"

"We are not yet ready to sell our soul for a mess of pottage Despite reduced farm income, we are not yet so desperate that we will turn our farm affairs over to the government as they have done in Russia," said the PFA President.

The Pennsylvania Farmers' Asso board of directors took action at its Friday meeting to contact all Congressmen and both Senators took action at its Friday meeting to contact all Congressmen and both Senators from Pennsylvania for the purpose of uring them to support the Secretary of Agriculture in his move to lower the price supports of dairy products

The board expressed the opinion that the reduction of price supports on dairy products from 83 to 75 per cent of parity would not materially effect the price of fluid milk

"After an extended period of time," said the PFA President, "the fluid milk price might drop slightly as the result of lower price supports of manufactured products such as ice cream and butter and cheese. But since most of the milk in Pennsylvania is marketed as fluid milk, the total income from dairying probably would not be affected to any great extent"

TAKING DOWN SOME OF THE OLD banners getting ready for their new 1958 one are Wilbur Hosler, left, son of Mr. and Mrs. Mark Hosler, R3 Manheim, and Clair Hoffer, son of Mrs and Mrs. Chester Hoffer, R4 Manheim. Both boys are students at Manheim Central High School which again this year had the best display of egg by a vo-ag department. The Manheim FFA chapter also won the award in 1948, 49, 52, 54 and in 1955. (LF Photo)

State Farm Products Used in School Lunches

A bulletin in the Future Homemakers of America booth at the Farm Show stresses the fact that the Pennsylvania school lunch programs make use of Pennsylvania farm products.

State Vegetable Conference Set For End of Month

Pennsylvania vegetable growers will have an opportunity to hear horticultural experts from over the Eastern Seaboard discuss some of the problems facing the industry today at a conference to be held Jan. 29 and 30 at the Nittany Lion Inn, University Park

The conference will also be the annual meeting of the state vegetable growers association.

Among some of the topics to be discussed are these Nematodes. systemic insecticides, causes of severe storms, runner control in strawberries, market competition with California, irrigation, chemical weed control and studies on staked tomatoes.

Dr H R Fortmann, assistant director of the Pennsylvania agricultural experiment station will welcome the vegetable growers to the conference. Also taking part in the program will be Dr. R E Larson, head of the horticulture department at Penn State.

In all some 11 Penn State faculty members will take part in the conference. They will be assisted by representatives of the University of Kentucky, the University of Massachusetts and the Associated Seed Growers Inc., New Haven, Conn.

Klarwin Farms Have 5 Very Good Guernsey Cows

PETERBOROUGH, N. H. — C W. Brown, Klarwin Farms, Nottingham, have recently had their Guernsey herd classified for type by L. O. Colebank, Knoxville, Tenn, official classifier for the American Guernsey Cattle Club.

A complete analysis of the Browns. This shows that of their 27 cows classified, five were rated Very Good, 10 Desirable and six Acceptable.

Babcock's

Healthy Chicks Make Great Layers!

Would You Rather Buy a Layer or a Stewer?

Monroe C. Babcock

How much is a stewing chicken worth to you? 40¢? 45¢? Certainly not much As a stewing chicken, there probably won't be much difference whether you sell a hen after 12 months of lay or 15 months of lay She doesn't depreciate much that way . she's still a stewing hen

But that same hen can produce about 5 dozen extra eggs during those 3 months, laying 60% production. That means about 65¢ profit per hen over feed costs and labor these days, and you still have a stewing chicken left to sell

Babcock Bessies will give you 14-15 months of continuous high lay so you can afford to keep them as egg producers for those extra months Bessies will average 235-270 eggs per year per bird housed, with 82-85% of the eggs grading large and extra large during the first year of lay.

Bessies will make money for you, and we would like to see them on your farm Make your plans now, and take advantage of our early order discount

Write us, or call collect, today .

Flying Farmers Convene During Farm Show Week

In spite of bad flying weather especially in western and northern Pa., about 80 Pa. Flying Farmers participated in at least a part of a two day program Jan 15 and 16.

On Wednesday the group were guests of the Pa Aeronautics Commission for the all day meeting and traditional bean soup luncheon The meeting was opened at 10 a m by John W. Macfarlane, executive director of the commission, with greetings and introductions after which Pa. Flying farmer President H. Gail Kimmel, Elton Valley, presided.

Frank Sunday of the commission spoke on Air Search and Rescue Pa Flying Farmers were requested to sign up to help on such rescue The Flying Famers would not be paid anything for the use of their planes It would be a public service in the interests of safety.

Kenneth T Kress of the Allentown Safety District Office lead an interesting discussion on High Density Air Traffic Zone Procedures. Pa. Sec. of Agriculture Dr. William L. Henning was delayed in arriving by air from Washington and was represented by deputy secretary Lee Bull

A. J. Drexel Biddle Jr., Adj, General and chairman of the Pa Aeronautics Commission also brought greetings to the farmers who fly and asked for the opportunity to be of service to the group in any way possible.

During the business session L L Logan, Kennett Square, Regional Director of Flying Farmers International presented detailed plans for work committees on the National Convention to be held in New York in August 1958. Each member present agreed to be chairman of a committee to solicit program advertising, sale of booth space and solicit sponsors for different convention activities.

A group of Flying Farmers who were interested in poultry had a special table at the Poultry Federation Banquet at the Penn Harris Hotel Wednesday evening and were given recognition as members of the boosters club.

A meeting was held at the Farm Show on Thursday morning at which time Logan presided. A film was shown on night flying. It showed how economic lighting could be arranged for greater utility of the farm aircraft.

The National Convention is on Aug. 11 to 14 in New York City after which will be the Butler Farm Show and queen crowning in August

Iowa Breeder New Angus Assn. Top Executive

From a family of Iowa Angus breeders comes Elliott Brown, recently elected president of the American Angus Assn His selection to head the world's largest group of registered beef cattle breeders—more than 34,000 adult and 3,000 junior members—is a crowning achievement for a lifetime of hard work in the Angus business.

The son of the late John B. Brown and Mrs. Irene Brown, El-Jon Farms, Rose Hill, Iowa, he follows in his father's footsteps. The late Mr. Brown was president of the national organization in 1943 His namesake, Hugh W. Elliott, Estill, Mo., one of the early founders of the breed in this country, was president in 1894.

Last year Brown served his sixth year as a member of the association's board of directors and also acted as vice-president.

He has experienced other successes in the Angus world. His first was in 1929 when, as a club boy, he showed Lucky Strike to the grand championship of the interbreed steer show at the International Livestock Exposition.

His steer sold for a record price of $8 25 per pound, which aided the Browns in expanding their farming and cattle breeding enterprise

The Browns are well-known throughout the beef cattle industry, and have bred and fitted ten International Grand Champion bulls and females in addition to Lucky Strike Mr and Mrs Brown have two children: Jon, 16, and Judy, 14.

Brown operates El-Jon Farms in partnership with his mother He hopes the third generation will be represented in the firm when Jon's education and military service are completed.

Lone Male Competes On Home-Making Team

A lone male competed in one of the twenty-nine teams in the home-making demonstration contest at the Farm Show. Martin Staub, Meyersdale, Somerset Co, is one of a 3-member team that presented a demonstratitn on table etiquette Tuesday.

New Breed Champs Selected At Farm Show

(Continued from page 12)

YORKSHIRE

Grand champion, "Sunnyside 10M", L E. Sentz, Sunnyside Farm, Felton, York County.

Reserve grand champion, "Hilltop Mollie Beatrass M4", Harold Zimmerman, Millersburg RD 1, Dauphin County.

SPOTTED POLAND CHINA

Grand champion, "Show Girl II', C. Warren Leininger, Denver RD 2, Lancaster County.

Reserve grand champion, "Pleasant Valley Alice", William M Kauffman, York RD 3, York County

POULTRY

Best large male, White Cornish, Harry G. Aurand, McClure. Snyder County

Best large female, Black Sumatra, H Dale Rice, Landisburg, Perry County

Best large trio, Buff Cochine, Elmer Potteiger, Mechanicsburg, Cumberland County

Bantams

Best female, Golden Seabright, B E Star, Harrisburg, Dauphin County

Best male, non bearded Mille Fleur Booted bantam, Mrs Anna Freeburn Penbrook, Dauphin County

Best bantam trio, clear legged Fringle bantam, Cleaver Farms, Oley, Berks County

Turkeys

Best turkey, Broad Breasted Bronze, Konhaus Farms, Mechanicsburg, Cumberland County

Gilts Average $116.91 During Farm Show Sales

(Continued from page 3)

III', consigned by Woodrow O. Walbert, Alburtis, Lehigh County. Sold to John L Griest of New Oxford RD 1, Adams County for $165

Reserve grand champion, "Noble Lady", consigned by J Harold Little, Hanover RD 3, York County Sold to Mahoning Creek Farms Smicksburg, Indiana County for $150.

Number of animals in sale—33.

Total value of sale — $2,995

Average price per animal — $90.75

DUROC

Grand champion, "Toppers Turline 5th", Clyde McConaughey, Smicksburg, Indiana County Sold to Charles Nash, Lepsi, Ohio for $535

Reserve grand champion, "Hazlett Miss 4th', James Hazlett, Tarentum RD 3, Allegheny County Sold to Ellis Crowl, Woodbine, Adams County for $190

Number of animals in sale—24

Total volume of sale — $2,825

Average price per animal — $117 70.

Milking Frequency Affects Output

Some guideposts on how frequency of milking affects total milk production are reported by Ralph Bonewitz, extension dairyman at Kansas State College

He notes that various studies on this subject through the years have not brought complete agreement, but says there is now sufficient evidence to indicate that, on the average At two years of age a cow will product 20 per cent more milk on three milkings a day rather than twice, at three years, 17 per cent more, and at four years and over, 15 per cent more

For the Farm Wife and Family

Dried Beans, Peas, Lentils Provide Energy, Vitamins, and Calcium

Most cooks are old friends with some particular kind of dry bean or pea, or with the lentil They like to cook and season it some favorite way.

But in markets today you may find a wide variety to choose from: Kidney beans — limas — Great Northerns — pintos — pea beans — split and whole peas — lentils — others perhaps.

So, if you want to know beans have cooking and eating acquaintance with a number of kinds and ways of seasoning and combining them with other foods in savory dishes.

BARGAINS — for budget and nutrition — Dry beans and their close cousins, the dry peas and lentils, are good bargains, budgetwise and nutritionwise. When buying, you can figure that a will provide 7 to 9 three-fourths pound of one of these dry foods cup servings.

All are substantial foods, good for energy They contain B vitamins, especially thiamine, and worthwhile amounts of the mineral calcium They are real nuggets of mineral value for the iron they provide — a cupful of cooked beans contains about half a day's needs for iron And with all this, they povide poteinr which the body requires to build and repair its organs and tissues

You can get the most good family foods if you have in the same meal some meat, cheese, or other protein from an animal source. The reason? Proteins in foods are made up of different combinations of amino acids Some of these proteins are more useful than others for the body's needs. There is especially good protein in meat and other foods from animal sources, and even a little combined with bean protein makes a strong protein team

SHORT CUTS FOR SOAKING AND BOILING — Beans and whole peas should be soaked before cooking to take up part of the water lost in drying. For full natural flavor and to save vitamins and minerals, use the soaking water for cooking Split peas and lentils may be boiled or pressure cooked without soaking.

A quick and effective way to soak beans and whole peas is to start by boiling them with the water for two minutes Remove from heat, soak one hour, and they are ready to cook

Even if soaking overnight fits your plans better, it is still an advantage to start with the two minute boil because there will be fewer hard skins If the beans or peas are to be soaked overnight in a warm room, the brief boil will keep them from souring

For beans that take an hour or loner to boil, cooking time may be shortened appreciably by adding baking soda to the soaking water. How much soda to use will depend on the hardness of the water. ith most tap water, adding one-eighth teaspoon of soda to the water allowed for one cup of dry beans will shorten cooking time about one-fourth. Measure soda carefully and add to the soaking water at the start. Too much soda will affect bean flavor and nutritive value.

COOKING DRY BEANS, PEAS LENTILS — One teaspoon salt in the cooking water with one cup of beans, peas, or lentils is about right for average taste You'll want less salt, of course if ham or salt pork is used For special flavor, add onions, or meat If you add tomatoes, catsup, or vinegar when boiling beans or whole peas, wait until

3 Thin a little meat or poultry gravy and add a pinch of a favorite seasoning, such as mustard, thyme, poppy seeds, or ground cloves Pour in the drained cooked beans and heat.

These trimmings are also good with whole peas and lentils.

And now for some recipes.

Our first recipe, of course would be for Boston baked beans. There are two methods given — the good old slow way and a quicker way almost as flavorful.

BOSTON BAKED BEANS

2 cups dry pea beans or Great Northern beans
1½ quarts water
1 teaspoon salt
¼ pound salt pork
4 tablespoons molasses
½ teaspoon mustard

Soak beans in the water Add salt and boil gently 45 minutes Make cuts through the rind of the pork about one-half inch apart Put half the pork in a bean pot or deep baking dish Add beans and rest of pork, exposing only the scored rind

Mix molasses and mustard with the cooking liquid from the beans Pour over the beans Cover baking dish.

Bake at 250 degrees (very slow oven) six or aseven hours; add a little hot water from time to time, if beans seem dry During the last hour of baking remove the lid to let the beans brown on top. Makes six to eight servings

For shorter baking — Boil pork 45 minutes along with beans. Add molasses and mustard and bake at 300 degrees (slow oven) three hours. Remove the lid the last 30 minutes to let the beans brown on top.

For a different flavor — Put peeled onion in the bottom of the pot or add one-half cup chopped onion. Use one tablespoon Worcestershire sauce, one-half teaspoon ginger, and pepper to taste for seasoning. Or add one-fourth cup catsup to the molasses, salt, and mustard.

Once you've baked a good sized pot of beans, you have a start toward several quick meals The next four recipes are for easily-prepared main dishes made with baked beans

BOILED BEAN SANDWICHES

4 slices bread
2 cups baked beans
4 large slices fresh tomato
4 strips bacon

Toast one side of bread under broiler. Spread beans on untoasted side, top with tomato and bacon Return to broiler for a few minutes, until bacon is crisp and beans are heated through. Four servings.

For variety — Omit bacon; top beans with a slice of cheese and lay slice of tomato on top. Broil until cheese melts and beans are heated through

Some kinds of beans foam up high during cooking. You can keep down foam when cooking Great Northern, red kidney, pinto, or pea beans by adding one tablespoon of salt pork drippings or other fat to the cooking water for each cup of beans. This is particularly helpful in pressure cooking Fat is not of much help in keeping large limas from foaming

Rapid boiling and frequent stirring cause bean skins to break so — boil beans gently and stir very little

SIMPLE TRIMMINGS FOR SERVING — You don't have to dress up plain cooked beans to enjoy them. But when you want an easy change from the usual, try one of these trimmings at serving time.

1. To drained beans add finely sliced celery or chopped green pepper or pimento. Season further with butter, margarine, or meat drippings.

2 Make a quick spicy sauce by thinning catsup or chili sauce with an equal suantity of water or the bean liquid. Add finely chopped onion. Pour the drained beans into the sauce, heat until the sauce bubbles, and you have beans Western style.

BEANS IN PEPPER CASES

4 medium-sized green peppers
Catsup
3 cups baked beans

Cut out stem ends of peppers; remove seeds. Boil peppers five minutes in salted water; drain Fill peppers with beans and pour catsup over them. Place peppers in a half-inch of hot water in a baking dish or a muffin pan. Bake at 350 degrees until the peppers are tender and the beans heated through — about 30 minutes.

BEAN-TOMATO BAKE

3 cups baked beans
1½ cups canned or cooked tomatoes

Put beans in a baking dish. Pour tomatoes over them and bake at 350 degrees about 30 minutes

To use fresh tomatoes — Place beans in baking dish and cover with thick slices of fresh tomato Sprinkle with bread crumbs and dot with table fat. Bake as above.

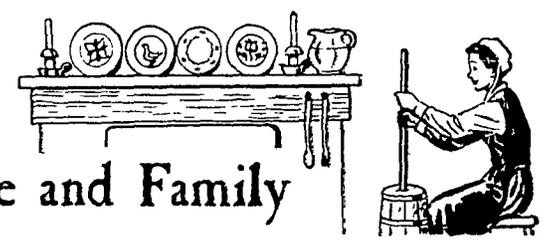
For the Farm Wife and Family



Six cups boiling water
Ham bone
One small onion, chopped
Salt and pepper

Add peas or lentils to the water with ham bone and onion Boil gently about 2 hours — until of consistency desired for soup Remove the ham bone If lentils are used, press soup through a coarse sieve to remove skins Chop meat from bone and return it to the soup. Season and reheat Makes 4 servings.

If there is little or no meat the bone, garnish bowls of soup with thin slices of frankfurters or bologna, or add one-half cup ground peanuts before reheating the soup

BEAN CHOWDER

Three-fourth cup dry beans
Three cups wate
One and one-half teaspoons salt
Three-fourth cup diced potato
One small onion, chooped
Three fourth cup cooked or canned tomatoes
One and onehalf teaspoons flour
One to two tablespoons butter, margarine, or drippings
One and one-half cups milk

Soak beans in the water, add salt, and cook until almost done. Add potato and onion, cook 30 minutes With the longer-cooking beans you may need to add more water

Mix flour with a little of the tomato and add to the beans with rest of tomato the green pepper, and fat Cook 10 minutes, stirring occasionally to prevent sticking Stir in the milk and reheat quickly 4 servings.

* * *

Dry beans also go well in salads

BEAN-PEANUT SALAD

Two cups cold cooked dry beans
One cup salted peanuts
One teaspoon grated onion
One-half cup coarsely chopped celery
Thick dressing to moisten
Salt and pepper

Mix all ingredients together lightly Chill Serve on salad greens 4 servings.

* * *

Chlordane Poisons — Chlordane poisns ants It's also poisonous to people, so keep it away from children, food, dishes, and cooking utensils, cautions J O. Pepper, Penn State extension entomologist.

For Farm Women . . .

(Continued from page 8)

BEAN PATTIES

2 cups baked beans
1 egg, beaten
Fine dry bread crumbs
Bacon drippings or other fat for browning

Mash beans; mix with egg Shape into patties (8 small or 4 large) and roll in crumbs Brown on both sides in a little hot fat.

Lima beans are teamed up with sausage in this recipe for

LIMA BEAN AND SAUSAGE CASSEROLE

One cup large dry lima beans
Two and one-half cups water
One teaspoon salt
Three medium-sized carrots, sliced
One-half pound sausage
Two tablespoons chopped onion

Soak beans in water. Add salt and boil gently for 30 minutes Add carrots the last 5 minutes. Do not drain.

If bulk sausage is used blend onion with it, shape into small patties, and brown in fry pan. If link sausage is used, cut in ½ inch slices and brown with the onion. Add the cooked sausage and two tablespoons of the drippings to the beans Bake at 350 degrees in a covered casserole until beans are tender, about hour. It necessary, add extra water during baking. Makes 4 servings.

BEAN AND MEAT STEW

Three-fourths cup dry beans
Two cups water
One-fourth cup finely chopped salt pork
One half cup chopped onion
One-half pound ground lean meat
Two cups cooked or canned tomatoes
Salt and pepper

Soak beans in the water and boil gently until almost done Meanwhile, fry salt pork crisp in a large fry pan and remove Brown onion lightly in the pork fat, add meat, and cook about 5 minutes Add pork Add tomatoes and beans, you may need to add more water Season with salt and pepper to taste Makes 4 servings

BEANS WITH FRIZZLED BEEF

One-fourth cup butter or margarine
Two ounces dried beef, torn into medium sized pieces (¾ cup loosely packed)
Two tablespoons flour
One and one half cups milk
Two cups cooked dry beans
One teaspoon Worchestershire sauce
Pepper

Melt fat over low heat, add beef and cook until edges curl Add flour and stir until it is well blended with the fat. Pour in the milk slowly, stirring constantly. Cook until smooth and thickened, stirring constantly Add beans and season with pepper, add salt if needed Heat thoroughly 4 servings.

Dry beans, peas, or lentils make tasty, nourishing soups. Ham bones usually provide the flavorful broth used as a base for these soups

SPLT PEA OR LENTIL SOUP

One cup dry split peas or lentils

York County Woman New President Of State Society of Farm Women

HARRISBURG, — Jan. 14 — Mrs George Gerberick, Sr., Dover RD 3, York County, was elected president of the Society of Farm Women of Pennsylvania at its 39 th annual convention during the Pennsylvania State Farm Show. Mrs. Gerberick succeeds Mrs. Charles Shriver, Waynesburg, Greene County

Also elected were Mrs. Edward Boyd, Stoyestown, Somerset County, first vice president; and Mrs Harper McCulloch, Newville RD 2, Cumberland County, second vice president

Other officers for 1958 are Mrs. Herbert H Roush, Lebanon RD 3, secretary, and Mrs Milton Eberly, Elizabethtown RD 3, treasurer.

Directors are Mrs LeRoy Bruce, Kennett Square RD 1, Chester County; Mrs Ernese Hartline, Boyertown RD 3 Berks County; Mrs. William Parker, Johnstown, Cambria County; and Mrs. John Ile, Newburg RD 1, Franklin County.

The Society adopted these resolutions to preserve the American heritage by imploring divine aid and guidance in state and national affairs and by supporting the laws of the country, to adopt and uphold the safety program of the State and National Safety Councils, to oppose Daylight Saving Time; to participate in activities of Pennsylvania Citizens Association to become better informed citizens; and that censorship of television programs be provided so that they maintain the Christian standards of the home.

Farm Women 19 See Food Freezing Demonstration

Farm Women 19 met Saturday Jan. 11 at the home of Mrs. Lester Groff, R1 Manheim.

Mrs. Mary Diffenderfer Myers, home economist, gave demonstrations of how to freeze holiday foods and how to prepare and decorate foods for holiday meals.

Roll call was answered by each member giving gift suggestion to her secret sister for the coming year.

Mrs. Arthur F. Landis recording secretary and Mrs. Scott Nissley Sr., corresponding secretary were installed as new officers

Members brought food donations for heart haven

Society 22 Planning for Rummage Sale

Plans for a rummage sale in October and a evening of entertainment for husbands were discussed by members of Society 22 at a meeting held Jan 7 at the home of Mrs. Harold Ranck, R7 Lancaster.

Mrs. Preston Harnish, R6 Lancaster was co-hostess

Mrs C Maxwell Myers showed her beautiful slides of Iceland and the Scandinavian countries She gave an interesting description of these countries.

Refreshments were served by the hostess

The next meeting will be held at the home of Mrs Jay Landis, R6 Lancaster, with Mrs Lloyd Herr, R6 Lancaster, as co-hostess

Farm Women 14 To Sew Feb. 13 At Lanc. General

Farm Women's Society 14 met Jan 8 at the home of Mrs. Henry Rohrer, Strasburg Co-hostesses were Mrs. Maurice Rohrer and Mrs Edwin Rohrer.

Devotions were led by Mrs. Frank Rohrer

The Society treated guests at the County Home. Jan 2 and will sew at the Lancaster General Hospital on Feb. 13.

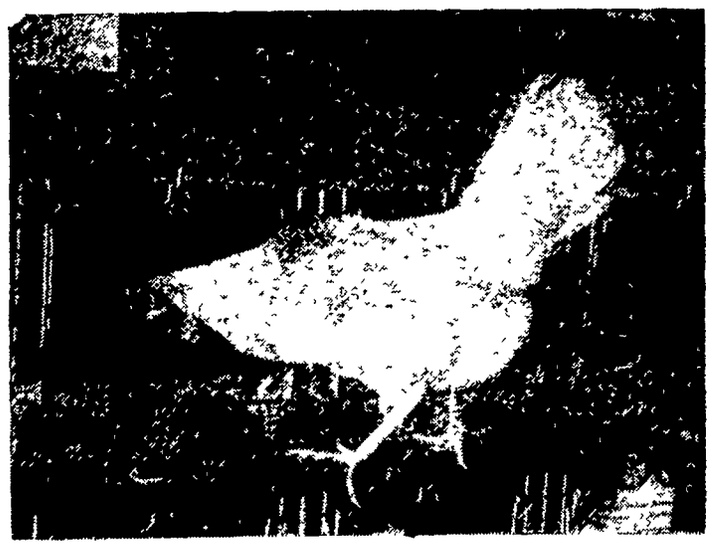
Delegates attending the state convention in Harrisburg were Mrs. Kathryn Shaubach anr Mrs. Maurice Herr. Mrs. Walter Himmelreich was the alternate delegate.

Contributions of $10 were given the Muscular Dystrophy Assn., the March of Dimes and to the 4-H Club Congress Delegates.

Representatives from the Singer Sewing Machine Co. gave a demonstration of some new ideas in sewing

Dr aul Z. Rummel,, Millersville State Teachers College, will be guest speaker at a luncheon meeting to be held at 12 30 p. m. Feb. 12 in the home of Mrs Shaubach, Strasburg Assisting hostesses will be Mrs. Alice Shaubach and Mrs Ira Rutt

How would you like a whole flock of pullets just like this one?



She's a busy Greider Foundation Pullet going about her business of laying an egg, which she does nearly every day She'll be the mother of many of those husky little Greider Chicks you'll be getting.

How would you like to get 90% Production?

We won't guarantee 90% production. We're not that foolish. But many of our customers are reporting over 90%, and we know they're not kidding, because we've had production like that right here on our own farm.

Our 1958 Model Greider Chicks will be the best we ever produced.

You can order your Greider Chicks from the hatchery or through the following:

County Fails to Place 4-H Steer As Champion to Break 6 Year Streak

All good things must come to an end, and the six year domination of the 4 H Baby Beef Show at the Farm Show by Lancaster County entries did just that last Thursday

Although Lancaster County entries were the largest in volume at the show, they didn't show judge Jack Frost enough quality to put them in the champion circle

Miss Mariam Hackman, R3 Elizabethtown, saved face for the champion Shorthorn, a 1,055 county by having the reserve pounder named Lucifer But Frost was looking for something else than Lucifer had to offer and gave the nod to a 1 035 pound Polled Hereford as Grand Champion and to a 1 235 pound Angus as the reserve.

Showing the Grand Champion was Lee Sweigard, R2 Halifax, Dauphin County He made a real fifirst in that Dauphin County never before was the home of the 4-H Grand Champion steer

Northampton County was the home of the reserve champ He was owned and shown by Kenneth Miller, 20 of R1 Nazarath, The steer, Named Amos III, represented Millers third try at the Farm Show Amos I won reserve championship in 15

Sweigard, a vocational agriculture student at Halifax Area High School, bought the steer for $137 from the Irvin Crissinger Stock Frm, Rebuck, Pa

Crissinger remarked to a Lancaster Farming reporter that the steer was always a 4-H steer His daughter had him as her project but when she entred nurses training, she felt that she could not continue and sold the animal to Sweigard

Crissinger also noted that this is the first time in several years that a Pennsylvania bred steer has won the championship and that it was also the first championship given a Polled Hereford

When asked if the win was a surprise to him, Crissinger said, "He looked that good as a calf"

The shorthorn breed champion was won by Terry Shaener, 16, Oak Hall Station, Centre County

In the Angus division, the deseve championship was taken by Miss Carol Ann Reichard, 16, R1 Nazareth Dale Werner 18, R2 Hanover, had the reserve Hereford

Lancaster County winners, in the order of judging Lightweight Angus, up to 980 pounds, 7 in class· 1 Marlin Cassel, R1 Manheim; 2. Samuel Long, R4 Manheim; 3 Lorraine Hackman, R2 Elizabethtown, 6. David Zimmerman, R Reinholds, 11 Thelma Cassel, R1 Manheim, 14 Wayne H. Miller, R1 Mt Joy

New Breed Champs Selected At Farm Show

Here are the champions in each of the livestock and dairy breeding classes shown from Wednesday to Friday of Farm Show.

MILKING SHORTHORN

Senior champion bull, "Pinesedge Defender", Samuel G. Yoder, Shoemakerville, Berks County.

Junior champion bull, "Pinesedge Sir Arthur", Irwin H Yoder, Shoemakerville, Berks County

Senior champion cow, "Pinesedge Roan Marjorie", Irwin H. Yoder, Shoemakerville, Berks County.

Junior champion cow, "Hillside K N. Hazel", Hillside Farms, Inc., Wilkes-Barre, Luzerne County.

Grand champion bull, "Pinesedge Sir Arthur", Irwin H. Yoder, Shoemakerville, Berks County.

Grand champion cow, "Pinesedge Roan Marjorie", Irwin H. Yoder, Shoemakerville, Berks County

JERSEY

Senior champion bull, "Walnuts Czar's Vistor", Meryl H Sheaffer, Carlisle RD 4, Cumberland County

Junior champion bull, "Huntsdale Radar", Meryl H Sheaffer, Carlisle RD Cumberland County.

Senior champion female, "Seely's Blonde Boots", Charles Seely, Drums RD 2, Luzerne County.

Junior champion female, "Seely's Blonde Sheila Boots", Charles Seely, Drums RD 2, Luzerne County.

Junior champion female, "Brampton Mart Mousey", Margaret Sheaffer, Carlisle RD 4, Cumberland County

Grand champion bull, "Huntsdale Radar", Meryl H. Sheaffer, Carlisle RD 4, Cumberland County

Grand champion female, "Brampton Mart Mousey", Margaret Sheaffer, Carlisle RD 4, Cumberland County.

BROWN SWISS

Senior champion bull, "Orangeville Rampart Simon", Kenneth G. Fahs, Hellertown, Northampton County.

Junior champion bull, "Otter Greek's Success Asset", Ray A. Pickel, Brogueville, York County.

Senior champion female, "Fra Mars Wanetta G", Harold Francis Kennedy, Butler RD 6, Butler County.

Junior champion female, "Otter Creek's Nema T.", Ray A. Pickel, Brogueville, York County.

Grand champion bull, "Orangeville Rampart's Simon", Kenneth G. Fahs, Hellertown, Northampton County.

Grand champion female, "Fra Mars Wanetta G", Harold Francis Kennedy, Butler RD 6, Butler County.

ABERDEEN-ANGUS

Senior champion female, "Millarden Zara", Millarden Farms, Annville, Lebanon County.

Reserve senior champion female, "Belfry's Blackbird", Frank V. Radomski, Norristown, Montgomery County

Junior champion female, "Greenswood Miss Burgess", Old Home Manor, Homer City, Indiana County

Reserve junior champion female, "Brookside Evine 13th", Brookside Farms, Whitemarsh, Montgomery County

Grand champion female, "Millarden Zara", Millarden Farms, Annville, Lebanon County.

Reserve grand champion female, "Greenswood Miss Burgess", Old Home Manor, Homer City, Indiana County.

Senior champion bull, "Millardenmare 32", Millarden Farms, Annville, Lebanon County.

Reserve senior champion bull, "Rowan Burgess 2nd", M. V. Hitt, Landenburg, Chester County.

Junior champion bull, "B. Bardolliermere 32nd", Brookside Farm, Whitemarsh, Montgomery County

Reserve junior champion bull, "Heckettier 119h", Joe F. Sherman, Hawthorn, Clarion County.

Grand champion bull, "Millardenmere 32", Millarden Farms, Annville, Lebanon County.

Reserve grand champion bull, "B. Bardolheimere 32nd", Brookside Farm, Whitemarsh, Montgomery County.

POLLED HEREFORD

Grand champion bull, "FLF Larry Carlos 8", Leon Falk, Falkland Farms, Schellsburg, Bedford County

Reserve grand champion bull, CLR Rollo Domino 201", Valley View Farms, Harrisville, Butler County.

Grand champion female, "Lady Lariella", Leon Falk, Falkland Farms, Schellsburg, Bedford County.

Reserve grand champion female, "FLF Bonnie Burton 20", Leon Falk, Falkland Farms, Schellsburg, Bedford County.

SHORTHORN

Senior champion bull, "Pointview Leader", Cummins & Eisminger, Waynesburg RD 3, Greene County.

Junior champion bull, "Timberless Consort", Fred W. Smalstig, Pittsburgh, Allegheny County.

Reserve junior champion bull, "JD Sporting Dutchman 3rd", Leon B. Risser, Lititz, Lancaster County.

Grand champion bull, "Timberlee's Consort", Fred W. Smalstig, Pittsburgh, Allegheny County.

Reserve grand champion bull, "JD Sporting Dutchman 3rd", Leon B. Risser, Lititz, Lancaster County.

Junior champion and grand champion female, "J. D. Cinderella Robin", Leon B. Risser, Lititz, Lancaster County.

Reserve junior champion and reserve grand champion female, "Timberlee's Rosewood 10th", Fred W. Smalstig, Pittsburgh, Allegheny County.

HEREFORD

Grand champion bull, "C. Zato Heir R 514th", National Agriculture College, Doylestown, Bucks County.

Reserve grand champion bull, "G. S. Coronet 6th", Woodruff Farms, Canonsburg RD 1, Washington County.

Grand champion female, "MF Miss Larry 125", C B. Montgomery, Grove City RD 1, Mercer County.

Reserve grand champion female, "W. F. Miss Zato Misch", Woodruff Farms, Canonsburg RD 1, Washington County

SUFFOLK SHEEP

Champion ram (yearling ram), Mrs. Ford Cooper, Reynoldsville, Jefferson County.

Champion ewe (yearling ewe), Mrs. Ford Cooper, Reynoldsville, Jefferson County

SWINE (Gilts)
BERKSHIRE

Grand champion, "Keystone Toppers Lady 3rd", George Bolinger, Edenburg RD 1, Lawrence County

Reserve grand champion, "Valley Springs Snooky", Woods Bros. Mercer RD 6, Mercer County.

Residential, Small Commercial Users Get PP&L Refund

In response to queries on the Superior Court decision on $3.8 million refund to company customers, Charles Oakes, board chairman of PP&L, said the decision was related to past rates for electric service which were in effect from Aug. 12, 1952 to Feb 28, 1955

Oakes explained that the company had accepted the Pennsylvania Public Utility Commission's order for the refunds a year ago and had been holding such funds pending the court decision This decision was only concerned with the issue between certain industrial customers and the Commission as to what classes of customers were entitled to this refund.

Oakes said, 'The refund had its sources in a 1954 court order changing previously recognized rate-making principles. At that time, the court overturned the concept that, as part of its regular costs of doing business, a utility was entitled to recover what it paid in good faith to acquire utility properties useful in serving PP&L customers.

"Instead, the court ruled, in effect, that even though properties may increase in value due to changes in the purchasing power of the dollar, this was not to be taken into account and any part of original cost was not recoverable."

Oakes said now that a decision has been made, the Company 'will proceed with the distribution of the refunds in accordance with the Commission requirements as soon as the necessary programming can be completed."

By a decision handed down in Philadelphia, the Superior Court has ruled that the 3 8 million in refunds which Pennsylvania Power & Light Co , has been holding in trust for more than a year sholud go to the utility's residential and small commercial power customer in line with the Pennsylvania Public Utility Commission order of Nov 20, 1956.

In January of last year the Court directed PP & L to invest the $3 8 million in Government securities pending the Court's decision on what class of customers should share the refunds

A group of P.P. & L's large industrial customers had claimed by appeal to the oCurt that the $3 8 million should go to them rather than to residential and small commercial power customers as ordered by the P. U C

President Gives Congress Farm Message

On Thursday of last week, President Eisenhower sent his farm message to Congress

Pointing out that the people of the nation are living in a world of rapid change, he said that the changes are as evident in agriculture as in labor, industry, refense or education

"A century ago, an American farm worker fed himself and three others Today he feeds ago our population was 82 per cent rural Today it is only one third rural and only 12 per cent of our population actually live on farms," the President said

He called the scientific revolution in agriculture "irreversible and continuing."

"It cannot be avoided and it need not be feared," he added

The President pointed out the following soft spots in the farm economy.

"Rising production costs continue to limit net farm income

"Acreage controls have failed to bring agricultural production into line.

"Large numbers of rural people have not benefited from price supports, nor hvae they benefitted as they should from the great changes in agriculture

"Price supports have scant meaning to a farmer with little to sell

Here is the complete text of the Presidents recommendations to Congress for legislative action

Basic agricultural legislation now on the book was originally devised as an emergency effort to cope with a depression, then changed to help fight a war, and subsequently revised again in an effort to meet the needs of peace. It has not been adequately modified to deal with the effects of the technological revolution in agriculture This must now be done

It is essential that the following major steps be taken this year to improve the status of rural people in greatest need, provide more freedom, expand to aid agricultural adjustment markets, and, thereby, to help raise farm family income

First The Conservation Reserve Program of the Soil Bank should be strengthened, and the Acreage Reserve Program terminated after the 1958 crop The Conservation Reserve has shown promise in retiring marginal acres from crop production, in aiding the cause of conservation, and in taking whole farms is wholly voluntary and must reout of production The program main so

Because of its late enactment, the Acreage Reserve Program was hampered during 1956 in achieving production adjustment And although the 1957 program succeeded in educing wheat production by about 175 million bushels cotton by 2 million bales, and corn by 220 million bushels below what it would otherwise have been, the number of farmers participating in 1958 is likely to be low, in part because of limitations that Congress imposed on the extent of participation by any one farm So in the future the production adjustment accomplished by the Acreage Reserve is likely to be small

Furthermore, there are large numbers of rural peaple who have not benefitted from price supports Nor have they benefited as they should from the great changes underway in agriculture In fact, some have been put at a competitive disadvantage by the onrush of farm technology and other economic changes

This is true not only in particular rural areas of low income but for some people in almost every farm community There are millions of rural people who, for reasons of small farms, poor soils, limited resources, age, inadequate credit, lack of education, poor health or insufficient managerial ability, have been unable to make the adjustments called for by modern technology

Few of the dollars spent on agricultural programs have been of appreciable help to this group

Price supports have scant meaning to a farmer with little to sell

Reductions in acreage to support higher prices are contrary to the needs of a farmer whose production is already too small to give him a proper livelihood

In my special agricultural message four years ago, I indicated that the Secretary of Agriculture would give attention to the problems peculiar to farm families with low incomes As a result the Rural Development Program was initiated It is widening opportunities for those rural people on the lower rungs of the economic ladder

We should now shift the emphasis of the Soil Bank away from the shortterm Acreage Reserve, aimed at reducing surpluses of particular crops to the longterm Conservation Reserve aimed at overall production adjustment

This change will aid all farmers, especially the lowincome farmer, who will, if he desires be better able to retire his entire farm from production

Expansion of the Conservation Reserve will be an effective instrument of adjustment only if it is accompanied by needed changes in price supports It must not become merely a means of offsetting the production stimulus supplied by price supports held continually at incentive levels

The Budget Message recommends a Conservation Reserve Program of $450 million for the 1959 calendar year

Second Authority to increase acreage allotments for cotton wheat, rice peanuts and tobacco should be provided nder present legislation acreage allotments and price supports for certain of the basic crops are determined by legal formulas nder these formulas allotments have already been cut sharply Allotments for certain crops are likely to be reduced even further, despite growing evidence that acreage restrictions have not brought about needed adjustments

Authority should be provided for the Secretary of Agriculture in accordance with criteria which the Secretary will proposed to the Congress to increase allotments up to 50 per cent above the levels determined by existing formulas

The law already species that the Secretary may provide price support at levels above those determined by formula, and this authority has been used The to increase acreage allotments law should also provide authority when the statistical formula yields results clearly contrary to the general interest But any acreage increases must be related to price adjustments which will permit the growth of markets necessary to absorb the increased production

Such liberalization of acreage allotments as is possible would permit greater efficiency and higher income for small farmers who now are sharply restricted in the size of their operations

Third Acreage allotments for corn should be eliminated The corn program has not worked Huge surpluses have accumulated As surpluses rise present legislation provides that allotments must shrink As allotments shrink, participation in the corn program dwindles A year ago 62 per cent of the corn farmers who voted in the referendum favored the elimination of corn acreage allotments In 1957, only about 14 per cent of the corn production in the commercial corn area was eligible for the full price support Thus, as allotments shrink, participation spirals downward, and price-depressing surpluses spiral upward

Fourth The esculator clauses in the basic law should be abolished Provisions now in the law require that price supports be raised as soon as the surplus is reduced This means that as one surplus is moved, incentives are automatically provided to build another ntil this basic law is changed, farm people can expect to be kept continually under the shadow of price-depressing surpluses

The Soil Bank and surplus disposal programs have already cut deeply enough into our surplus to throw these escalator clauses into action to build more surpluses Elimination of these escalator clauses is necessary if surplus disposal programs and the Soil Bank are to achieve their purpoe

Fifth The overall range within which price supports may be provided should be substantially widened Presently price supports must be provided by rigid formula for cotton, wheat, corn rice peanuts tobacco and dairy cent of parity This range is too products between 75 and 90 per narrow to permit the growth of markets needed to absorb the production which, despite acreage controls, our farms appear certain to produce Price supports for the above-named commodities should be determined administratively between 60 per cent and 90 per cent of parity using the eight guidalines now provided by law for practically all other commodities This needed chnge in price-support policy would open the door to market expansion, increased acreage allotments and greater freedom to produce

For commodities like the feed grains, with respect to which the Secretary of Agriculture has had wide discretion in the past, price support has been offered at levels as high as could be justied under the criteria specied by law This will be the Secretary's practice under the recommended legislation

Sixth Price supports for cotton should be based on the average quality of the crop For cotton the law specifies that supports must be based on a grade that is far below the average quality The law should be corrected to put cotton price supports on the same basis as for all other crops

Seventh The membership of the Commodity Credit Corporation Advisory Board shouud be enlarged and the Board's responsibilities increased The recommended changes in determining

He was one of 11 riders from the county who participated in the riding events.

(LF Photo)

President's Farm Message

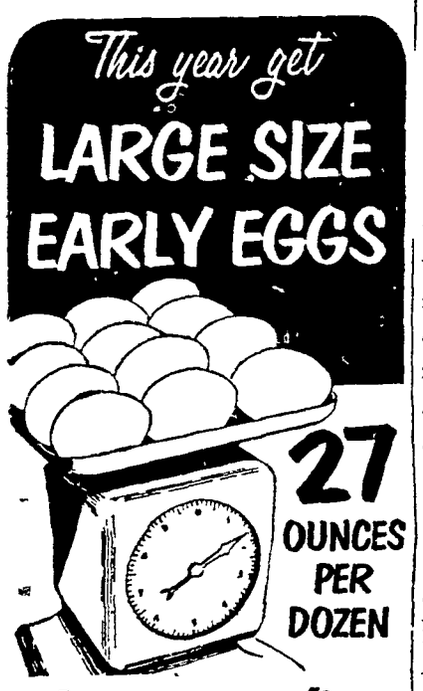
(Continued from page 13)

acreage allotments and price support levels will make additional administrative discretion a necessity. To assist the Secretary of Agriculture in exercising this discretion, the bi-partisan Commodity Credit Corporation Advisory Board should be increased in number from five to seven. Members should be appointed by the President as at present, but with confirmation by the Senate The Board should advise the Secretary regarding the establishing of price supports, determining of acreage allotments and related subjects.

Eighth The Agricultural Trade Development and Assistance Act should be extended. This law is one of the major authorities for moving surplus commodities The law should be extended for one year with an additional $1 5 billion authorized for sales for foreign currencies But it must not, however, be allowed to become a device to postpone needed production and price adjustments The extension should be limited to one year to give Congress the opportunity for annual review

Ninth Research efforts aimed at increasing industrial uses of farm products should be expanded. Our farms and forests are a major source of our raw materials. To a greater degree than at present, these raw materials can be used in industry, thereby broadening markets for our abundant farm products. New uses and new markets can be developed for our surplus crops. To bring this about, increased utilization research is needed and is proposed in the Budget Message This will be moving in the direction recommended by the President's Commission on Increased Industrial Use of Agricultural Products.

In addition to the nine steps outlined here, the Congress should, as recommended in the Budget Message (a) extend the National Wool Act, (b) continue the special school milk program (c) broaden the sources of funds for Rural Electrification Administration, (d) require State participation in programs to relieve the effects of drought or other natural disaster, and (e) improve conservation accomplishto those practices which achieve ment by restricting cost-sharing longer lasting conservation benefits



An outstanding characteristic of K-137 KimberCHIKS

As of January 1, 1956, K-137 Kimberchiks led in early egg size in all three official random sample tests in which they were entered—California, Missouri, and Utah. Since large eggs are often worth 100% more than small, and 35-50% more than medium, this characteristic of the K-137 can make a great difference in income during the pullet year.

The K-137 is also noted for its good egg quality, both shell and interior. The high percentage of firm albumen results in more AA quality eggs.

The K-137 has good livability... 93.4% to about 18 months in the three official tests in which they were entered last year.

We invite you to compare the performance of this outstanding stock under your own management.

Vegetable Growers Focus Attention On Growing Use of Irrigation

Some 175 county vegetable growers heard the pros and cons of irrigation discussed Tuesday at a meeting held at the Guernsey Breeders Sales Pavilion

Amos H Funk, R1 Millersville, chairman of a panel discussion on the subject, said that irrigation is enjoying a tremendous gain throughout the nation He cited figures showing that since 1950 the use of irrigation in Lancaster County has grown by some 771 per cent The total acres under irrigation now, he said, amount to 3 342 as compared to 433 in 1950

Funk pointed out further that in Missouri the use of irrigation gained 440 per cent in four years and that in Virginia 110 new systems were added in six months

From 1949 to 1954 farmers in Ohio went from 5,000 to 25,000 acres under irrigation while the acreage irrigated during the same time in Tennessee zoomed from 1 000 acres to 22,000 acres

The East still lags far behind the West in total acres, he noted. While 145,000 acres are irrigated in the 25 Eastern states, the 11 Western states irrigate a staggering 20,00,000 acres

The meeting was also the scene of several presentations of awards to growers with high yields

John Ewell, New Holland, and Cloyd Wenger, R5 Lancaster, each were cited for lima bean production Ewell raised 2,400 pounds an acre and Wenger showed a total of 2,100 pounds to the acre

Named master tomato grower for the second time in three years was Clarence H Harnish, R7 Lancaster He made a record of 24 3 tons of tomatoes an acre without benefit of supplemental water. In 1955 he made a record yield of 24 8 tons to the acre

Jay Garber, R6 Lancaster, had the top yield of peas, producing 2,767 pounds to the acre. Second was David Bauman, Lititz, with a yield of 2,330 pounds an acre.

Harnish said that as many as 12 tons of tomatoes ripened at one time in his 9 3 acre field during the peak of the season He also maintains a 30 cow Guernsey herd

DISCUSSING THE EFFECTS of irrigation and some of their findings was this panel at the Vegetable Growers meeting Tuesday. They are, from left, the Rev Emory Herr, Ronks; Jacob Glick, Smoketown; Omar Zook, Manatawny; Amos H. Funk, Millersville; Robert Fletcher, Penn State, Richard Kreider, R1 Manheim; Harry Sloat, Lancaster; and Jay Hodecker, R3 Lancaster. (LF Photo)

Economy Meat Market, $1.25; Mary K Keene, Southdowns, 294, Medford's Inc., 40 cents; Mary Ann Hess, Hampshires, 363, S. Bonacurso, 25 cents,3 Darvin Bopd, Shropshires, 378, Seachrist Bros, 28 cents; Janet Gibble, Shropshires, 335, A & B, 2 cents

Harold Sangrey, Hampshires, 400, Bonacurso; 23½ cents, David Witmer, Cheviots, 282, Medford's 34 cents and Donald Wiggins, Shropshires, 318, A & B, 33 cents

Gives calves everything but mother love!

BE-CO-NURSE

High Protein Milk Replacer

Be-Co-Nurse consists of more than 85% dried milk products A 25 lb bag (reconstituted) replaces 250 lbs. of whole milk . . . saves you an average of 50% on liquid feed costs.

STAYS IN SUSPENSION

Be-Co-Nurse contains lecithin, an emulsifying agent. You'll like the way it stays in suspension so that the calf gets it all

You'll like also the way calves grow on Be Co-Nurse One 25 lb bag brings the calf to 6 or 7 weeks in splendid condition for weaning Beacon customers are enthusiastic about the rate of growth, comment that these calves have strong, clean bones and are free from excess fat

Be Co-Nurse is economical, easy to feed Plan now to give your calves this strong start toward a healthy, productive life.

Beacon Dealers and Beacon Advisors are located throughout Lancaster County. For the name of the one nearest to you please phone or write:
